Dear Don:

Thanks for the article on carbon monoxide. We have one of these ecolyzers and find that it works quite well after you learn how to use it.

As you may know the Committee on Medical and Biologic Effects of Environmental Pollutants has also put out a report on nitrogen oxides which is very interesting and informative. Hopefully sometime in the not too distant future I will have time to prepare a critique of the nitrogen oxide situation similar to that which I had published in Preventive Medicine on carbon monoxide.

With best regards.

Sincerely,

H. Wakeham / by es
